THERE ARE SO MANY CHOICES!

WHICH IS BEST FOR ME?

WHICH ONE SHOULD I CHOOSE?

IS QUICKBOOKS FOR ME?

Quick Books Online Subscription Options

A note from Janet

There are so many choices out there and QuickBooks is a great choice for many small businesses. There are options within QuickBooks to meet your needs. But that leads to the trying to figure out which one is best! So, which one is best?

My answer is always the same,... the one that you are going to use!! Ok, that being the case, let's figure out which QuickBooks is best for you!!

That answer is not as simple! There are several options to pick from and which one is best depends on your needs and where you see your business going. I am going to share a few thoughts to help you make a better decision.

If you are still not quite sure, please reach out to me and we can discuss the options in detail to help you determine which option is best for you!

QuickBooks offers 2 distinct platforms, Desktop and Online. Desktop has robust reporting options, and may be a great choice. However, it's housed in one location. Whereas the Online options offer cloud based functionality that can be accessed from any device connected to the internet. But is more limited on reports.

In addition...

QuickBooks online offers various subscription levels. Which allows small business owners and entrepreneurs to choose the level that best meets their needs. Of course depending on the specific needs, depends which level is best. Each level offers additional functionality and features, but increases in monthly subscription costs.

Choosing the right level to match your investment is the dilemma. In order to give you an idea of the options, I have included a QuickBooks Chart that details the options available from QuickBooks. If you just need the basics, a lower level may be a great start. And you can always upgrade! If you need multiple users and the inventory feature, then you will need to invest in the at least the Plus level. Check out the specifics below to get an idea of what is available so that you can make a better decision.

Remember, feel free to reach out as I would be glad to review the options with you so that you can invest in the best option for you! Visit my website and let's connect!
